

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

The flat-fee Universal Service Fund proposal is unfair. I urge you to oppose this plan. I am one of the many AMERICAN ELDERLY consumers that will be unfairly taxed at a higher rate under the flat fee plan. The flat-fee would mean a tax hike for people like me -- consumers that use prepaid cellular phones For emergency health related and few local calls to keep in contact with their immediate domestic partners.

I support the Keep USF Fair Coalition, and monitor this issue on their website. Stopping the flat fee tax is important to my family who are OUT OF AREA - not to mention my pocket book. You will hear from me again, until this issue is resolved fairly! The flat-fee is unfair, and DISCRIMINATORY against the (controlled budget) elderly who cannot afford "STANDARD" wireless emergency service

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as high-volume residential or business customers. I urge you to reject this flat-fee proposal.

Thank you.
